FIRM RESUME

General Information

Our firm was formed with the goal of combining the experience we gained through practicing law at large firms with the closeness, flexibility and attention to detail that characterize many smaller firms. In essence, we have designed our firm to be able to handle both large and small matters, offering what we believe our clients want most: ***quality legal work with an emphasis on communication.***

Our firm's philosophy is essentially a continuation of the manner in which each of us have practiced law: ***our clients and their needs come first.*** Responsiveness to our clients' needs is of equal importance to professional skill and legal acumen. We are mindful that the law is a service business and we place a premium on communication. It is our policy to keep our clients fully informed as each matter progresses. We seek and encourage our clients' active participation in every business deal we do for them and in every litigation we handle for them. The client has the final say as it is their matter. ***We serve the client.***

Regardless of the matter, our approach to each case is the same. Our attorneys are as thorough as possible, present an aggressive position for our clients and are tough negotiators. We utilize all available resources necessary to achieve the best possible outcome for our clients. In addition, the combination of polished oral and written advocacy and extensive trial and litigation

experience ensures that our clients receive a high quality legal product and excellent results. Our goal is to consistently exceed our clients' expectations.
